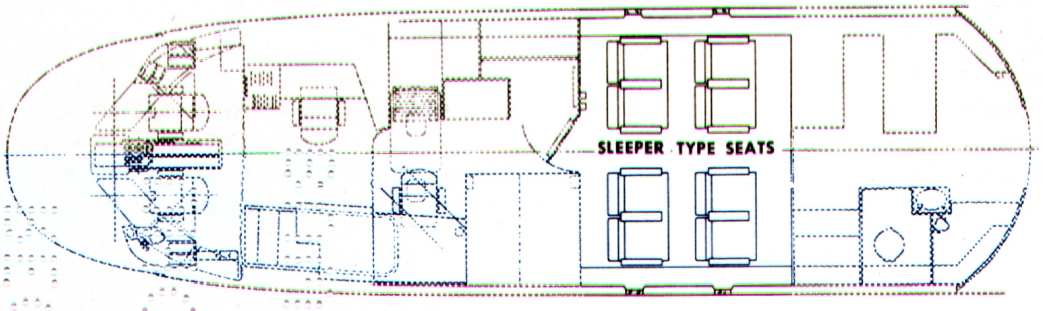
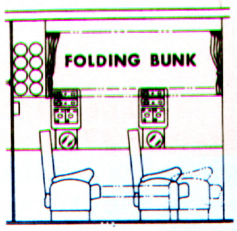
FLIGHT COMPARTMENT CENTER SECTION

The flight compartment center section extends from Station 379 to Station 475 and includes two upper crew bunks and four aft-facing double passenger seats. Each pair of double seats may be made into a bunk for sleeping. Enclosures for miscellaneous stowage are also included in this area as well as oxygen, air conditioning, and lighting provisions for personnel.





FLIGHT COMPARTMENT AFT SECTION

The flight compartment aft section extends from Station 475 to the pressure bulkhead at Station 550 and includes the galley equipment and toilet on the left-hand side and the main electrical junction boxes on the right-hand side.
